Quite a few records have been borrowed from a fair-sized library of which the townspeople may not be aware. We welcome wider use of this facility.

A prize-speaking contest was held for grade children in April. We expect this to be an annual event sponsored by the library. With that in mind we have built up the selection of poetry books for all ages and this is augmented in the Spring by the Bookmobile.

A very successful summer reading program, which we hope to repeat, is largely responsible for the greater circulation of children's books.

The success of candy and book sales was due to the support of townspeople and is appreciated.

This is your library. If you have suggestions please get them to us for consideration. Each year there is greater use of the library and we wish it to continue.

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

Fire Permit

A fire permit is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be prior to 9:00 a.m., and after 5:00 p.m.

Exceptions

Commercial or industrial burning is allowed anytime under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or cooking fire are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained from the Laconia Office or at the Ranger Stations. Permits are not required in public camp or picnic grounds where fireplaces have been built for this purpose.

Penalties

1. For kindling a fire without a permit. Maximum of \$200.00 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means wilfully or recklessly that shall endanger woodlands the maximum fine is \$500.00 or one year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (1) above.
4. For dropping inflammable material in or near woodland, maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

SUGGESTED REVISIONS IN THE TOWN HALL BY-LAWS AS RECOMMENDED BY THE COMMITTEE APPOINTED BY THE MODERATOR SUBSEQUENT TO THE ANNUAL TOWN MEETING OF MARCH 1969

It shall be understood by the term teenagers means any minor under the age of 21.

It shall be the duty of the chaperones to see that the hall is properly cleaned before leaving the function.

Add the following sections to Article II:

REPORT OF THE ACTIVITIES OF THE BENNINGTON PLANNING BOARD DURING 1969 TOGETHER WITH THEIR RECOMMENDATIONS FOR ACTION AT THE MARCH 1970 TOWN MEETING

Town Sewage Project

At the time of the submission of the last report by the Bennington Planning Board on this project in the Town Report of 1968, we had on file with the Department of Housing and Urban Development (HUD) of the Federal government an accepted application for an interest-free loan with which to undertake the final engineering for the Bennington-Antrim joint sewage project. In June of 1969 we were informed by HUD that our application had been approved and funds had been made available. Later in the year the engineering firm of Anderson-Nichols began the final engineering work on this project and this work is expected to be completed sometime in mid-1970.

When the final engineering work is completed and approved by both HUD and the State Water Pollution Commission, the town will then be ready to begin construction as soon as State and Federal funds are available. When this will be is, of course, impossible to know exactly, but if the State Legislature continues the precedent established at the last session of providing state funds with which to pre-finance the portion of the total cost which is to be provided by the Federal government, it is quite possible that construction could begin fairly soon thereafter.

The town is now under Official Order No. 1409 from the New Hampshire Water Supply and Pollution Control Commission for abatement of pollution in the Contoocook River by July 18, 1970. We will, of course, ask for an extension of this time limit and, having in good faith taken

all the proper steps, we see no reason why there should be any difficulty in this connection.

The consulting engineering firm of Anderson-Nichols has recommended that the town raise and appropriate \$1,000 to provide for the necessary acquisition of land and easements in order to complete this project. In view of the fact that Monadnock Paper Mills, Inc. has committed to donate to the town the land necessary for the treatment plant and lagoon, it is anticipated that this appropriation should be more than sufficient to obtain the necessary easements and whatever other land might be necessary.

Joint Dump – Bennington & Antrim

In the 1968 report to the town we explained that we had been studying the possibility of a joint dump with Antrim related to the knowledge that open burning of town dumps will be prohibited by the state fairly shortly. It was also stated that the Planning Board would expect to have recommendations for the March 1970 Town Meeting.

The Planning Board and the Selectmen jointly with the Planning Board and Selectmen of Antrim have held meetings during the year on this project. They have agreed in principle that a dump for the use of both towns to cover not only the usual rubbish disposal but later on the sludge from the sewage treatment plant would be in the interest of both towns. A site in North Bennington was selected and discussion initiated with the owners regarding a long term lease in order that this site be used for a land-filled solid waste disposal area. The site has been approved by the State authorities. In view of the fact that the site is in Bennington, it was also agreed that the dump would be owned and operated by the Town of Bennington and that an agreement would be made with Antrim providing for their use of the facility based upon an allocation of the anticipated operating costs.

It was also agreed that Bennington would add items to the Town Warrant requesting (a) the necessary authority to enter into a long-term lease for the necessary land and (b) the necessary authority to negotiate an operating agreement with the Town of Antrim. Antrim in turn agreed that they would also include in their Town Warrant an article requesting the necessary authority for Antrim to enter into such a negotiated agreement.

Sub-Division Code

Many recent studies have indicated that there would be a substantial growth in the towns in Hillsborough County, but, even so, the Planning Board has been surprised at the recent indications of substantial growth

within our town. We are suddenly conscious that for the best interests of all, provisions should be made for an orderly and well-planned basis for such growth. Town legal counsel has recommended that the Planning Board should consider the adoption of a Sub-Division Code and we expect to report further to the townspeople at the time of the March 1970 Town Meeting.
